"Code is like humor. When you have to explain it, it's bad."

Summary

B.Tech graduate in Computer Science and passionate Full Stack Developer with hands-on experience building scalable web and android applications using modern technologies. Proficient in designing intuitive UIs and robust backends. Eager to leverage technical expertise to solve real-world challenges.

Education

B.Tech in Computer Science - Government Engineering College, Idukki - Oct 2022 – June 2025

- CGPA: 7.22/10
- Relevant Courses: Computer Networks, Object-oriented Programming, Design and Analysis of Algorithms, Data Structures, Computer Architecture and Organization, Web Development, Software Engineering, Discrete Mathematics.

Diploma in Computer Engineering - Kerala Government Polytechnic College, Westhill - 2018 – 2021

- CGPA: 8.98/10
- Relevant Courses: Data communication and computer networks, Operating systems, Object-oriented Programming, Microprocessors and micro-controllers, Data Structures, Web design and development, Database management systems, Software Engineering, Smart device programming.

Experience

Operations Executive - Infosys Ltd.- Oct 2021 – Oct 2022

- Analyze operations: Use data analysis tools and software to identify bottlenecks and inefficiencies
- Application support: Create and execute orders for trade transactions, ensuring they meet organizational and regulatory requirements
- Manage resources: Optimize time and resource allocations for operations, including cleaning resources.
- Prepare reports: Prepare reports for management to review.

Projects

Project Scheduler

- Designed an Android application to streamline the project scheduling process for college students. It serves as a mobile extension of a web-based platform, ensuring seamless access to key project-related information. This application bridges the gap between students and the project submission processes.

CoviVacciCare

- Designed an Android application to manage and monitor vaccination records for students and teachers within an educational institution. It provides a streamlined platform for tracking vaccination details, generating reports, and ensuring compliance with mandatory vaccination requirements.

ExamManager

- Developed a web-based application to automate and simplify the examination hall allotment and seating arrangement process in colleges. It provides an efficient solution to manage the complexities of hall allocation, seating assignments, and invigilator assignments.

Portfolio Website

- Developed and deployed a personal portfolio showcasing projects and skills using HTML and CSS. Implemented responsive design to ensure compatibility across devices.

Technical Skills

JavaScript , php , Flutter , Android Studio , Angular , React , Node.js , Express.js , HTML5 , CSS3 , MongoDB , MySQL , Firebase , Git/GitHub , Python , Django , Dart , Java , C , C++

Soft Skills

Leadership , Quick learning , Team Management , Good Communication , Problem Solving , Time Management

Achievements

⚙ **BCEP Level 5 certification**- Successfully Completed Business Communication Excellence Program(BCEP) level 5 in Business English.

⚙ **Spoken Tutorial CPP certification**- Secured 55% marks in the C++ test conducted by Spoken Tutorial Online Test Center, IIT Bombay.
